The President's Place of Worship.
The church which the president attends has always been a subject of interest to the public, as is evidenced by the fact that the pews which past presidents have occupied are being pointed out to the stranger from year to year, and so will few 132 in Dr. Sunderland's church, generations hence, be gazed at with curiosity by the visitor to Washington. From the time the president reached Washington there was a rivalry among the various churches there as to which would secure him, but the latter, with his characteristic individuality, selected a church from which no invitation had been sent him.

THE NEW YORK AVENUE PRESBYTERIAN CHURCH.

The church which he chose is the most fashionable of the Presbyterian churches in Washington. It is in an unadmirable part of the town, and has been very prosperous of late years. The pastor, the Rev. Hyatt Sunderland, preached in this church before the war, President Pierce and his wife being regular attendants in those days. The greater portion of the congregation then were southerners, who alienated themselves from it owing to the decided Union views which their pastor maintained. Dr. Sunderland has been chaplain of the Senate for nine years, but since 1889 has retired from public notice. To the artist who was seeking information before making the sketches from which our engravings are made, Dr. Sunderland wrote: "Hitherto we have been a very retiring people, not at all known to fame nor sought after by the representatives of the press. This sudden notoriety is quite as inexplicable and somewhat annoying to a simple-minded, old-fashioned people, who neither expect nor court conspicuity." If some churches are born prosperous, and others in time achieve prosperity, Dr. Sunderland's church is an example of one that has prosperity thrown upon it. The very anticipation of the president worshipping at this church packed it to suffocation the first Sunday after he was inaugurated.

A Massachusetts paper mill has adopted a safety paper which will make it extremely difficult for any one to tamper with bank notes or checks printed upon it. The coloring matter of the paper is so prepared that the application of any chemical to remove the ink permanently changes the color of the paper, and an ingenious device is added which betrays at once any attempt to make an erasure. Between the two the enterprising forger will be sure to come to grief.

Many persons find speedy relief for nervous headache by washing the head thoroughly in weak soda water. We have known cases almost wholly cured in ten minutes by this simple remedy. A friend finds it the greatest relief in case of "rose cold," the cold symptoms entirely leaving the eyes after one thorough washing of the hair. The head should be thoroughly dried afterward and avoid drafts of air for a little while. - [Health and Home.]

A bottle, to which a large bunch of balloons has grown, was fished up recently by a Baltimore oysterman. Inside the bottle was a fish too large to get out of its mouth. It is supposed that the fish went into the bottle, and either liked its quarters so well that it tarried too long, or before it could find its way out had grown so large as to nearly fill the bottle. The bottled fish will be sent to the Smithsonian Institution.

An Irishman who was sleeping all night with a negro, had his face blacked by a practical joker. Starting off in a hurry in the morning, he caught sight of himself in a mirror. Puzzled, he stopped and gazed, and finally exclaimed: "Be jabbers, they've woke the wrong man!"

HUNTINGTON'S TWO STEAKS OF STEEL.—It is not generally known that C. P. Huntington can enter a car at Newport News, on the Atlantic coast, and can ride all the way to San Francisco, on the Pacific, over his own railroads. - [New York Letter in the Baltimore Sun.]

PREPARING FOR NECK-TIE SOCIALS—In view of the tidal wave of tardy justice that seems on its way back to Kentucky, it will be well enough for our farmers to put some tobacco ground in hemp. - [Frankfort Crier.]

A carpet five years old was lately found to be worth \$2,500. It had been in use at the San Francisco Mint, and when it was taken up, was carefully burned, and yielded that amount of gold dust.

Humorous Animal Painting.
A varnished company is said to have recently puffed a well-known animal painter \$7,000 for a picture of a coach load of monkeys driving a four-in-hand team of rabbits.

The Law and the Lawyer.
One of our chief obstacles now-a-days to the administration of exact justice in criminal cases is the ambition which impels small lawyers to seek the conspicuity that is the ordinary reward of a successful defense in a criminal case. To impel the administration of justice, to create sympathy for a depraved and devilish criminal, to befog the popular judgment, and confuse the public sense of justice—is to do these things successfully has until recently been deemed an infallible method of securing distinction at the bar. The sort of distinction achieved in this way, however, has ceased to be regarded as enviable. Probably the most successful practitioner of these acts in the West is T. C. Campbell, of Cincinnati, and, yet, we doubt if there is a jack-leg lawyer in Kentucky that covets the reputation which notorious personage "enjoys" as a practitioner at the bar. In proportion as a lawyer resorts to disreputable practices to carry professional ends, in the same proportion he sacrifices his own claims to popular confidence and esteem, and imparts to his own character a distinctly criminal taint. No really great lawyer ever attempted or desired to corrupt the administration of the law.

"See here," said the managing editor, kindly but firmly, to the young man who has just come to do the fire and dog-fights, and assume general charge of the entire paper; "you must be a little more careful in your grammar and spelling; You make too much trouble for the compositor and proof reader. You say in this article 'he bad went' and 'we have never asw.' Then your spell separate with two ps and four es, and you say 'we have come to the conclusion' and 'that we are horrified at the bear idea.' Now you must be careful, and—"Aw, well, look here, Shorty," cried the new young man, "give a fellow a chance. You got to remember I've been in college for eight years and haven't had a chance to learn anything." The managing editor forgave him, and promoted him to the carrier department.

A reporter of the Pittsburgh Times, while talking to a number of iron-workers, was by a puddler of a man who has two trains of rolls and who makes without any trouble from \$15 to \$20 a day. A roller with a small guide mill train can earn from \$8 to \$10 a day. There are rollers in Pittsburgh now earning from \$36 to \$50 a day. There is a steel roller in a South Side steel works taken from his work about 2 o'clock in the afternoon in his berouche, driven by his colored servant.

JUST AS GOOD.

Many unscrupulous dealers may tell you they have remedies for Coughs and Colds equal in merit and in every respect just as good as the old reliable Dr. Rosario Cough and Lung Syrup, unless you insist upon this remedy and will take no other, you are liable to be greatly deceived. Price, 50 cents and \$1.00. Sold by McRoberts & Stagg.

Falcon is discussing the Washington City newspaper reporters, in the Louisville Times, says: Every day he is in the galleries of the Capitol, and looks down into the witches' caldron, seething and boiling below him, where greed and pretense and thine vailed fraud are constituent elements of the broth. He soon sees that this honorable member's declaration that the public domain must not be granted to corporations, but reserved for actual settlers, means that he is giving notice to some railroad magnate that he must be bought off. He understands that the eloquent gentleman who declaimed so passionately against any revision of the tariff and demands that the interests of the laboring man must be protected, merely means in his heart of hearts that some enterprise in which he is interested must be shielded from competition, so that his dividends shall be larger and less uncertain. The littleness, the holowness, the insincerity of all about him creeps at last like a cold mist into his own nature, and before he knows it any change his moral faculties are benumbed.

RED PEPPER AND SALT FOR CHOLERA.
A Massachusetts correspondent has called our attention to the publication, about thirty years ago, of a very successful cholera cure, introduced in this way: The captain of an emigrant ship, coming from Europe, had lost many of his passengers by cholera, although freely dosing all who were sick with the remedies then usual. At last he made up a prescription of his own—one teaspoonful of red pepper and a tablespoonful of salt to a half pint of boiling water; this to be given as hot as possible, to every patient when first taken. It is said that this simple remedy acted as a charm, curing all the cases on board that ship, and attained considerable general popularity during the time of that cholera visitation. —[Scientific American.]

A female dentist in Oregon is said to have resorted to a novel device to obtain a husband. She had as a patient a handsome man, and one day gave him a dose of ether that confused, but did not make him insensible. Then she sent for a clergyman, and while the subject was under the influence of the drug, the two were declared man and wife. When the man recovered his senses he expressed surprise and some disgust at what had occurred, owing to the fact, not before known to the fair dentist, that he already possessed a wife.

Underneath the approach to the East River Bridge, on the New York side, there is a court or yard in which day and night are literally reversed. The bridge supports shut out the sunlight, while the electric light burning on the bridge at night make the court nearly as light as day. The people residing there being of course, poor, are unable to pay for gas or oil in order to see to work when other people do, so they sensibly do their sleeping then and their work at night by the electric light, which costs them nothing.

If indications count for any thing, it is almost certain that the whipping-post will be made the corrective remedy against one growing Kentucky evil. Wife beating is becoming entirely too common, and the white and black scoundrels who gratify their cowardly viciousness by beating helpless wives should be made to take some of their own medicine. For wife beating the whipping-post is a most admirable remedy —[Frankfort Capital.]

How to make a paste or mucilage to fasten labels on: Soften good glue in water, then boil it with strong vinegar, and thicken the liquid, during boiling, with fine wheat flour, so that a paste results; or starch paste, with which a little Venice turpentine has been incorporated while it was warm. —[Scientific American.]

Telegraph wires have to be renewed every five or seven years. The Western Union Telegraph Co. exchange about one thousand tons of old wire for new every year. The new wire costs from seven cents to eight cents per pound, and for the old about one-eighth of a cent a pound is allowed.

An excellent and simple disinfectant for sinks and waste pipes is made by mixing one large tablespoonful of coppers with one quart of boiling water. This solution is odorless and deodorizes instantly. The copper may be bought at any druggist's for eight or ten cents a pound.

Gen. Grant, it is said, is to receive from the publishers of his autobiography, Chas. L. Webster & Co., \$200,000, which sum is to be invested as the General's legacy to his family. The amount will be properly secured in such a form as to leave not the slightest risk.

W. P. WALTON.

The precinct conventions to name delegates to the District Convention to nominate a candidate for the State Senate, are to be held in Boyle, Casey, Garrard and Lincoln, between the hours of 2 and 4 o'clock p.m., Saturday, May 16th, instead of September, which got into the published proceedings of the committee by some unaccountable manner. The District Convention will be at Stanford, Saturday, May 23d and will be called to order at 1 p.m.

There is no excuse for a man not keeping his property insured and for that reason we failed to honor the draft of the Treasurer of the Kentucky Press Association for the benefit of the Eminence newspaper man, who was recently burnt out. Besides we do not know the editor, have never exchanged with him and feel that calls nearer home for charity are fully as great as we can meet.

The Court of Appeals is an unfortunate body, the fates seeming to combine to prevent them from performing the services demanded of them. A month ago Judge Poyr sprained his ankle, which has since laid him up at his home in New Castle and a day or two ago, Judge Lewis met with a similar accident, in consequence of which the Court is not in session, nor likely to be soon.

The Louisville *New Argus* says with a good deal of point that in the opinion of a lot of old, drunken political hacks a knowledge of any branch of science in a Government official is worse than ridiculous. To be a successful and highly competent statesman and public official now-a-days one must be a liquor soaked boor, with an aptitude for telling smutty stories after dinner.

DEMOCRATIC and other papers are scorning it into Minister Phelps. They say he is in no sense a representative American, and that his connection with the Emma mine swindle, whereby English people lost \$5,000,000 prove him to be a dishonest man. It begins to look as if Cleveland had better have left Mr. Phelps in the obscurity of his Vermont home.

The dirty dead-beat, O'Donovan Rossa had two bail writs, one for \$820 and the other for \$96, served on him while in Louisville. His lecture did not meet expenses, to the credit of the Irish of the city be it said, and but for curiosity of those who wanted to see what manner of man he was he would have had to talk to empty henchmen.

ALFRED LITTLE, the Breathitt county desperado, who shot Judge Bennett and who is charged with a half dozen murders, is in jail at Mt. Sterling, having been arrested by U. S. detectives, charged with forging vouchers for pensions. He will likely get the justice that the State Courts have been unable to mete out to him.

THE people of Charlottesville, Va., close by which town is Monticello, where the remains of the illustrious Jefferson lie mouldering into clay, celebrated the anniversary of his birth Monday, in becoming style. The founder of democracy would have been 141 years old had he thought to live some 70 years longer.

THE report that Secretary Manning was about to retire from the Cabinet and be appointed Collector at New York, to be succeeded as Secretary by Randall or McDonald is denied, at Washington. There is a good deal more honor in his present office but much more pay in the Collectorship.

The Knights of Honor met in Grand Lodge at Louisville this week and elected W. H. Yost, of Greenville, Grand Dictator. Resolutions censuring Judge Breckinridge and Harding for the muddle recently adjusted were presented. The Judge made an explanation and demanded a trial.

It is telegraphed from Washington that Blackburn is now pushing Phil Thompson for the Chinese Mission, Great Jehovah! Can't these people take a hint? Or will the President have to take a club and beat it into their heads that when he wants Mr. Thompson he will call for him?

THERE has been no declaration of war between England and Russia, but both are making every preparation for the inevitable event. Meanwhile our produce quotations are climbing away up and the farmer's face is becoming less elongated.

Hurrah for Judge Durham! As Comptroller of the Treasury, has decided not to pay those of Lot Wright's Deputy U. S. Marshals who were not residents of the district in which they served.

It is said that the Rowan county row is only sleeping, preparatory to an outburst that will eclipse all former efforts of that miserable and lawless people.

Ex-President Fish of the Marine Bank of New York, was found guilty on ten counts of the indictment, in which he is charged with embezzling the funds of the bank. The prisoner is liable to a sentence of from five to ten years' imprisonment on each count.

The sensation now agitating St. Louis, is the discovery of a man in a zinc trunk at the Southern Hotel, which is supposed to be that of C. A. Peller, who was murdered by one Dr. Maxwell for his money. They both occupied the same room and after Maxwell had been gone several days, the stench from the trunk caused it to be opened, when then the ghastly sight was presented. A card upon which was written "so perish all traitors to the great cause" was pinned to the body.

Young says he will hold the money as a trust fund for the child, and will rear and educate it at his own expense.

—With a 1,000 miles between him and Rhey Boyd, young Turner writes: "The statements which he makes in this interview I denounce as infamies, and the author as a drunken, blustering coward, who seems to be envious of the notoriety of a street rowdy rather than desire the satisfaction one gentleman may require of another, and which he can get at any time. Boyd knows well where I am to be found, and as I put my name to the articles I publish, I am personally responsible for them." Turner is trying to make a reputation for bravery by means of printer's ink, but all reports show that he acted the coward when Boyd confronted him and repeated what he had said to his father.

—Your correspondent is the recipient of a peculiar looking book called "Love Investigated." It is printed on brown paper and fastened together with a shoe-string. Dearing and Curry, of Louisville are the publishers.

Why is it that a Ky. Legislature has not the manhood to pass a law to protect the sheep interest of the State? If it was done Ky. is destined to be the greatest wool-growing State in the Union, and if it is not done the sheep must go.

—Last Monday night Bailey Collins and two of the young Thompsons, all of whom are section hands, came to town about night and proceeded to fill their hides with whisky.

—After the task had been accomplished, there was heard upon the stillness of the night an occasional yell, or a report from a "pop." One of these reports was heard in front of Marshal W. T. Saunders, who had retired for the night. Saunders being aroused by the report, came out with his shotgun in hand, and saw a man on the pavement in front of his door, and demanded of him to know who fired the shot and on going up to the man he proved to be Bailey Collins. Some words passed between Collins and Saunders when Saunders knocked Collins down with his gun and then ordered him to leave town immediately or he would put him in jail. Collins started but overtook the Thompson boys at the corner of Main and Elm streets, where they opened a promiscuous fire with their pistols. Saunders summoned two or three men and started in pursuit. When in speaking distance Saunders ordered the men to halt and surrender, but their reply was a volley from six-shooters which was returned by the Marshal and party. The section hands retreated but were soon overtaken by Saunders and party when a hand to hand fight ensued, in which Collins and his party came out second best. One of the Thompsons was knocked down several times by Saunders before he would surrender, Collins was shot through the arm but entered the side, but struck a rib and bounced out. The Thompson boys were lodged in jail and Collins taken to a hotel and a doctor summoned to dress his wounds which was found not to be dangerous. The parties were taken before Judge Carson and released upon bond until Collins should be able to stand a trial.

—RAILROAD AID QUESTION.

—The Lincoln County Court at its April term, 1885, made an order submitting to the qualified voters of the county, at an election to be held in the several voting precincts of the county, on **May 16th, 1885**, the following question:

—Whether the county of Lincoln shall issue bonds to an amount not exceeding twenty-five thousand dollars on the credit and responsibility of the whole county, to be expended in acquiring title to the right of way over a strip of land through the county of Lincoln, beginning at or near Stanford or Richland Junction and extending thence westwardly by or next to Hustonville to the Casey county line, upon the general width of not more than seventy-five feet, and such additional ground as may be needed for that purpose and such land at Stanford as may be needed for depot buildings, machine shop, round house, water supply and such other buildings and structures as may be useful to said railroad, and to permit the county to dispose of said property when so acquired to said Railroad Company upon such reasonable terms and in such manner as to compensation as may be agreed upon by said county, through its Commissioners, and said Railroad Company, as permitted by an Act of the General Assembly of Kentucky, entitled "An Act to authorize Lincoln county to raise money to aid in the construction of a railroad through said county," approved May 1, 1884.

—The undersigned were appointed a committee by the Court and directed to have the above stated action of the Court published for the information of the voters of the county, and we have adopted this method of performing that duty.

J. BLAIN, THOS. W. VAUGHN, J. N. MENEPEE, Committee.

THE accomplished orator, Prof. T. M. Hawes, will give an entertainment at the Presbyterian church, on the night of May 4, for the benefit of the Sunday school.

BARRETT's circus sends us a lengthy advertisement but as the rate offered is so far below our figures, we had to decline booking a circus bill of this paper. But as the show is only appearing in small towns this season, we don't suppose it can afford to pay city prices for newspaper notices.

A PREACHER and another young man here were informed by mail a few days ago that each of them had been honored with a namesake near Crab Orchard, and they were contemplating presents, &c., when they received intelligence next day that their namesakes were in the shape of two mule colts, on the Prestonsville pike.

WE hope the good ladies of the Presbyterian church, who really deserve the highest commendation for their efforts in raising money for church purposes, will not take the playful allusion to them in our last issue as a slur. We did not so intend it and had we thought how it would look in print, it should not have appeared.

THE Big Barefoot Minstrels, which will give an entertainment here, April 25th, are composed of the following "World-Renowned Artists," so to speak: A. T. Nunnelly, D. R. Carpenter, C. C. OUR thanks are hereby tendered Mrs. James Duddar for a large plate of butter from her wonderful cow, which recently beat all the records in her yield of that article. Mrs. Duddar understands the art of preparing it as her gift abundantly proves.

IN A HURRY.—License was granted Wednesday to H. R. Frazier, a widower of 43 to marry Mrs. Deilia Griffin, aged 28. Mrs. Griffin is the divorced wife of A. J. Griffin, who secured a divorce from her during the present term of the court, on the ground of abandonment and the ink of the decree is hardly dry before she for a second time assumes the name of wife.

MAN SHOT.—Marshal W. T. Saunders shot Bailey Collins in the arm while attempting to arrest him, Tuesday night; the ball ranging from the elbow up into the breast. It seems that Collins, who had a grudge against Saunders, came to Crab Orchard with two men named Thompson, and when in front of Saunders house they fired off their pistol. Saunders went out with a gun and succeeded in knocking Collins down, but he got away and began shooting his pistol again up town. Saunders went to arrest him, but the man took off his heels and only stopped when a bullet made him bite the dust. The wound is said to be serious.

WHEN the cases against George McAlister were called Tuesday, he plead guilty and was fined \$10 in each case making the whole amount with the costs \$70. There was no proof against Dale Wolford and the cases against him were dismissed. In this connection we would say to the young men of town, most of whom are as well-behaved and as gentlemanly as any in the world, that we would much rather say pleasant things about them than to publish their misdeeds, and when in the discharge of our duty as a conservator of the peace in a measure, we have to mortify their friends by a publication, it is with sincere regret, coupled with the hope that the certainty of a public notice will deter them from a repetition of offence.

JUDGE OWSEY granted Bill Carson a new trial on the grounds that he erred in not admitting Carson's statement when he surrendered himself after the killing and because of the alleged discovery of new evidence in his favor. All the jurors swore that while they had copies of the INTERIOR JOURNAL, which contained a short account of the case, after it had been submitted to them, they did not read the article, and the Judge very promptly ruled that that cut no figure in his decision granting a new trial. The attorneys for Carson will move the court to-morrow for a change of venue to Pulaski, as they allege that it is not possible for him to get a fair trial here. Mr. Warren offered to retry the case at once here with a jury obtained from a neighboring county, but that did not suit their idea. A change of venue according to the usual rule means a continuance at the call of the case; an application for a reduction in bail which will be given and then the case will be tried it over at the pleasure of the defense.

NOT INFANTICIDE.—A poor, idiotic-looking, cross-eyed specimen of humanity, Nannie Walker, a colored girl, was arrested Wednesday on a charge of murdering her infant, six weeks old. On being accused of the crime, she said that the child had died when she was going along the road with it in search of work and that she had laid it by a branch near Roht. McAlister's and covered it up with a rock. She was taken thence by the coroner and the body found as she had described. A large stone lay upon it and several other stones were piled around. There was no evidence of violence on its person and an autopsy was ordered. This revealed that the stomach and bowels were entirely devoid of food of any kind and the surgeons testified before the coroner's jury that death had resulted from starvation. A verdict in accordance with that fact and charging the mother with criminally failing to provide for the child was returned and the woman remanded to jail. Yesterday an examining trial was held before Judge Carson and no evidence appearing to show that she had murdered the child very promptly discharged the girl. The poor thing was half starved herself, had no one to help her in her troubles and was not capable of work, could she have obtained it. P. M. McRoberts, who was appointed to defend her, made a sensible and well-delivered plea for the unfortunate creature, which was appreciated by all who heard it.

CARPETS, rugs, oil cloth and matting at Edmonton & Owsley's.

A U. S. DEPUTY MARSHAL served a summons on John C. Horton, of this country, yesterday, to appear before Court at Frankfort to answer John Francis' suit for \$3,700, balance due on his land.

A NEW telephone line between Danville and Junction City is to be built at once and Messrs. Miller & Matthews say that they will have the line operating from here to Richmond and Lexington inside of 60 days.

DEATHS.

Mrs. Green, mother of Mr. Frank Green and Mrs. M. J. Cosby, died Tuesday of pneumonia, aged 78, and was buried in the Danville Cemetery. She was a good christian woman and won the crown she will wear by a life of devotion to the Saviour.

JUDGE LYTTLE received a telegram Wednesday announcing the death of Miss Sue Davis, at the home of her brother, Mr. J. N. Davis, near Medicine Lodge, Kansas, and informing him that the remains would be sent here for burial. They will probably arrive this afternoon and be consigned to the earth, close to where she was born and where the most of her life was spent. Her disease was pneumonia, with which she suffered but a few days. Miss Sue had many friends here, who will grieve to hear of her sudden death.

WILLIAM CLYMER, an honest and clever man as ever lived, died suddenly at his home near Highland, Wednesday night, aged 70 years. Mr. Clymer was a native of Pennsylvania, afterwards a resident of Ohio and for the last sixteen years a citizen of this county, where he made many friends. He was a Jackson democrat; voted for old Hickory and for every democratic nominee for the Presidency since. He was greatly rejoiced at the election of Cleveland and seemed proud that he had lived to see another democrat inaugurated President. He served his party almost to the very last for he was judge at the last primary election and but a few days ago climbed up the stairs to our office to return the poll book. The old gentleman was a Mason and will be buried with the honors of the order at Mt. Moriah church to day at 1 o'clock. A wife and one child survive him.

RELIGIOUS.

REV. T. M. VAUGHAN will preach at the Baptist church here next Sunday morning and night.

THERE are now eighteen Chinese Sunday schools in New York, ten in Brooklyn and one in Jersey City. They have about seven hundred members.

A COLLEGE for young ladies is to be established at Mayfield, under the auspices of the Christian church. The buildings are estimated to cost \$15,000. The Rev. J. B. Birney is to have charge of the institution.

THE meeting at the Frankfort Baptist church closed after a five week's duration with 121 additions. A debt of \$3,500 which has been hanging over the church for sometime was liquidated, and the congregation is stronger and in better working condition than ever before.

ELD. J. W. McGARVEY's lecture promises to draw a good audience at the Christian church to night. Not long ago he made a thorough tour of Palestine, where he obtained a fund of interesting information of the scene of most of the events recorded in the bible, and this he will give to his audience together with stereopticon views of many of the places in the Holy Land. It will be both entertaining and improving and everybody should attend. Admission 25 cents.

LAND, STOCK AND CROP.

J. L. Dawson has sold his lambs to be delivered in June to Robinson & Ware at 5 cents.

WHEAT jumped up five cents a bushel at Chicago Wednesday, but fell back to 91½ for June delivery.

A CHICAGO farmer's paper puts the yield of the wheat this year at 70 per cent. of that of last season.

WANTED 50,000 pounds of wool for which I will pay the highest market price.

N. T. Hughes is authorized to engage

the new clip of wool at highest market price. See him before selling.

THE cattle market is quiet at Louisville at 2 to 5 40 for very common grades to extra shipping; hogs are easy at 3½ to 4 ½; sheep 2½ to 4½.

SALES OF COMMON EWES AT \$1.30 per head and 12 bushels of tobacco at \$6 to \$13.25 per hundred are reported in the Winchester Democrat.

A GENTLEMAN who has taken the pains to inform himself says that the average yield of wheat in this country will not exceed the amount of seed sown last fall.

W. C. Roger sold to W. L. Caldwell, Jr., of Boyle, to go to Corralton, Iowa, 10 head of high grade Jersey heifers, at \$60 per head; to Mr. O. Ames, Lebanon, a grade Jersey milk cow, for \$80. —[Lachlan Standard.

LEXINGTON COURT.—About 400 head of cattle of all grades on the market. The best feeders from 5½ to 5½ cents, good vealings \$35 to \$40. About 50 mules were sold on Cheapside at prices ranging from \$100 to \$150 with a few extra ones at \$175, plug horses sold at usual prices.

—THE bright sunshine of the past week is said to have wrought a marvellous change in the wheat prospects in the Shenandoah Valley, Virginia. Fields that were to have turned over for corn are now green. The yield will be at least one quarter more than was thought possible two weeks ago. —[N. Y. Sun.]

TUESDAY night was the 20th anniversary of the assassination of President Lincoln.

THE BIG BAREFOOT MINSTRELS, which will give an entertainment here, April 25th, are composed of the following "World-Renowned Artists," so to speak: A. T. Nunnelly, D. R. Carpenter, C. C. HORSEMEN AND HORSES.

By Fancier.

Uncle Wils Tidale, one of the best trainers of his time when younger, has spent this winter as usual with Kenner Farris, at Crab Orchard, Ky. He rode Old Pet, by Comet, in her training and races and trained Denmark, the invincible four-miler. His stories and anecdotes of men and horses of those days are wonderful and interesting. The two famous brothers, John and Jim Bell were, particular favorites of his and he yet thinks few better horses have since been produced, and he has trained some great horses.

The Ky. Derby promises to be more interesting this year than ever before, as so many entered therein proved extra good in their 2-year-old form last year.

Favor is made solely from his 2-year-old career. But many as good at 2 years have failed to get there—notably, Hymur was a sensational 2-year-old, but in the Derby was eclipsed by the splendor of Mr. Nichols' Day Star. Blue Eyes could have won, had he then been up to the form he attained a little later.

A biographical sketch of Gen. Harding, proprietor of Belle Meade in Live Stock Record, of April 4th, is worthy of the editor as well as of the veteran hero.

L. M. Lasley received an order yesterday from Deming, New Mexico, for a thoroughbred horse.

Joe Cotton, a horse well backed in Ky. Derby, was lame at New Orleans.

Little Miss Price, eleven days old, has been sold for \$1,050.

Algath, King Mitus, and a pacer, recently sold in Kentucky for \$8,000, \$5,000 and \$2,500, were on a train wrecked near Covington, and sustained such injuries as is thought will retire them from further track use.

Roht. Bonner has sent Musette and Mary Merchant to Ky.

J. E. & J. R. Farris, owing to the low price of mules, have reduced the season of their fine jack, Steve Walker, to \$8.

HUSTONVILLE, LINCOLN COUNTY.

Mrs. M. T. Williams, of
